September 27, 2005 at 4:02 PM EDT

NEWPORT BEACH, Calif., Sept. 27 /PRNewswire-FirstCall/ -- Joseph R. Tomkinson, Chairman and CEO of Impac Mortgage Holdings, Inc. (NYSE: IMH), or the "Company," a Maryland corporation, being taxed as a Real Estate Investment Trust ("REIT"), announces the Board of Directors' approval and declaration of the 2005 third quarter dividend of \$0.45 per common share. The third quarter dividend will be paid on October 14, 2005 to stockholders of record on October 7, 2005. The ex-dividend date will be October 5, 2005. Therefore, new stockholders interested in receiving the 2005 third quarter dividend must purchase common stock on or before October 4, 2005.

Mr. Tomkinson commented, "We have reduced our quarterly common stock dividend to a level that we believe is consistent with our expected third quarter estimated taxable income per common share." Mr. Tomkinson further commented "Although continued rising short-term interest rates and elevated levels of mortgage prepayments have put continued pressure on our adjusted net interest margins, we believe that over the long term our core strategy of building a large portfolio of adjustable rate mortgage assets, along with our interest rate and credit risk management strategies should continue to reduce our exposure to rising interest rates. Furthermore, once the Federal Reserve changes or modifies their stance on increasing short-term interest rates we expect our borrowing costs will begin to stabilize, and we anticipate that the yield on our adjustable rate mortgage assets will adjust upwards allowing for an improvement in our adjusted net interest margins." Mr. Tomkinson further stated, "In the interim, we intend to continue to sell a higher percentage of loans for cash gains, where execution of loan sales have remained favorable, we plan to invest selectively in mortgage assets that meet or exceed our investment criteria, and we will continue to focus on growing our mortgage and warehouse lending operations." Mr. Tomkinson concluded "With respect to weather related losses in the Gulf coast region, specifically the states of Louisiana, Mississippi, Texas and Alabama while losses can not be determined at this time, we do not expect losses to be material."
