

Impac Mortgage Holdings, Inc. Announces Results of Second Quarter 2010

August 16, 2010 at 8:16 PM EDT

IRVINE, Calif., Aug 16, 2010 (BUSINESS WIRE) --Impac Mortgage Holdings, Inc. (NYSE Amex: IMH), a Maryland corporation, or the "Company," reports second quarter 2010 net earnings of \$3.3 million, or \$0.39 per diluted common share, as compared to a net loss of \$(3.6) million, or \$(0.47) per diluted common share for the second quarter of 2009.

Mortgage and real estate services

For the three and six months ended June 30, 2010, mortgage and real estate services fees were \$15.7 million and \$27.0 million, respectively. The mortgage and real estate services fees of \$15.7 million for the three months ended June 30, 2010, was primarily comprised of \$7.8 million in monitoring, surveillance and recovery fees, \$3.5 million in title and escrow fees, \$2.7 million in loan modification fees, and \$1.7 million in servicing income. The mortgage and real estate services fees of \$27.0 million for the six months ended June 30, 2010, was primarily comprised of \$12.8 million in monitoring, surveillance and recovery fees, \$6.0 million in title and escrow fees, \$5.8 million in loan modification fees, and \$2.4 million in servicing income. Although the Company intends to generate more fees by providing these services to third parties in the marketplace, the revenues from these businesses have primarily been generated from the Company's long-term mortgage portfolio. Furthermore, since these businesses are recently established there remains uncertainty about their future success. During the first quarter of 2010, the Company began to expand the portfolio surveillance and recovery services operations and entered into an agreement with a third party to assist in credit risk management and portfolio surveillance services.

In June 2010, the Company signed a definitive agreement with a regional bank providing the Company with a \$10 million warehouse facility. This facility provides the company with a funding source to originate residential conforming loans that are eligible for sale to HUD and other government-sponsored enterprises. As of June 30, 2010, there were no borrowings against this facility. The interest rate on the facility is one month LIBOR plus 4.00%, with a floor no less than 5.00%. The agreement expires June 2011.

At June 30, 2010, cash within our continuing operations decreased to \$14.9 million from \$25.7 million at December 31, 2009. The primary sources of cash for the six months ended June 30, 2010, were \$27.0 million in fees generated from the mortgage and real estate fee-based businesses and \$7.9 million from residual interests in securitizations. Offsetting the sources of cash were operating expenses totaling \$30.0 million and \$19.0 million in payments on the note payable.

Since our consolidated and unconsolidated securitization trusts are nonrecourse, we have netted trust assets and liabilities to present the Company's interest in these trusts more simply, which are considered our residual interests in securitizations. For unconsolidated securitizations our residual interests represent the fair value of investment securities available-for-sale. For consolidated securitizations, our residual interests are represented by the fair value of securitized mortgage collateral and real estate owned, offset by the fair value of securitized mortgage borrowings and net derivative liabilities. We receive cash flows from our residual interests in securitizations to the extent they are available after required distributions to bondholders and maintaining overcollateralization levels within the trusts. The estimated fair value of the residual interests, represented by the difference in the fair value of trust assets and trust liabilities, was \$27.3 million at June 30, 2010, compared to \$23.0 million at December 31, 2009.

At June 30, 2010, the note payable decreased \$18.5 million from December 31, 2009, as a result of monthly payments totaling \$9.0 million comprising of principal and interest. Additionally, during April 2010, the Company made a \$10.0 million principal payment that was due per the terms of the note payable.
