#### Summary of Business and Significant Accounting Policies

The Company is a specialty finance company which, together with its subsidiaries and related companies, operates three businesses: (1) the Long-Term Investment Operations, (2) the Conduit Operations, and (3) the Warehouse Lending Operations. The Long-Term Investment Operations invests primarily in non-conforming residential mortgage loans and securities backed by such loans. The Conduit Operations purchases and sells or securitizes primarily non-conforming mortgage loans, and the Warehouse Lending Operations provides warehouse and repurchase financing to originators of mortgage loans. These latter two businesses include certain ongoing operations contributed to the Company in 1995 by Imperial Credit Industries, Inc. (NASDAQ - "ICII"), a leading specialty finance company (the "Contribution Transaction"). IMH is organized as a real estate investment trust ("REIT") for federal income tax purposes, which generally allows it to pass through qualified income to stockholders without federal income tax at the corporate level.

Long-Term Investment Operations. The Long-Term Investment Operations, conducted by IMH, invests primarily in non-conforming residential mortgage loans and mortgage-backed securities secured by or representing interests in such loans and, to a lesser extent, in second mortgage loans. Non-conforming residential mortgage loans are residential mortgages that do not qualify for purchase by government-sponsored agencies such as the Federal National Mortgage Association ("FNMA") and the Federal Home Loan Mortgage Corporation ("FHLMC"). Such loans generally provide higher yields than conforming loans. The principal differences between conforming loans and non-conforming loans include the applicable loan-to-value ratios, the credit and income histories of the mortgagors, the documentation required for approval of the mortgagors, the type of properties securing the mortgage loans, the loan sizes, and the mortgagors' occupancy status with respect to the mortgaged properties. Second mortgage loans are generally higher yielding mortgage loans secured by a second lien on the property and made to borrowers owning single-family homes for the purpose of debt consolidation, home improvements, education and a variety of other purposes. At September 30, 1997, IMH's mortgage loan and securities investment portfolio consisted of \$694.4 million of mortgage loans held in trust as collateral for Collateralized Mortgage Obligations ("CMOs"), \$106.2 million of mortgage loans held to maturity, which will be used as CMO collateral, and \$71.4 million of mortgage-backed or other collateralized securities.

Conduit Operations. The Conduit Operations, conducted by ICIFC, purchases primarily non-conforming mortgage loans and, to a lesser extent, second mortgage loans from its network of third party correspondents and other sellers and subsequently securitizes or sells such loans to permanent investors, including the Long-Term Investment Operations. ICIFC's ability to design non-conforming mortgage loans which suit the needs of its correspondent loan originators and their borrowers while providing sufficient credit quality to investors, as well as its efficient loan purchasing process, flexible purchase commitment options and competitive pricing, enable it to compete effectively with other non-conforming mortgage loan conduits. In addition to earnings generated from ongoing securitizations and sales to third party investors, ICIFC supports the Long-Term Investment Operations of the Company by supplying the Company with non-conforming mortgage loans and securities backed by such loans. For the nine months ended September 30, 1997 and the year ended December 31, 1996, ICIFC acquired \$1.8 billion and \$1.5 billion, respectively, of mortgage loans and sold to third party investors or securitized \$1.0 billion and \$1.0 billion, respectively, of mortgage loans. The Long-Term Investment Operations acquired \$533.4 million and \$591.6 million, respectively, of loans from ICIFC as well as \$12.6 million and \$32.5 million, of securities created by ICIFC for the nine months ended September 30, 1997 and the year ended December 31, 1996, respectively. Prior to the Contribution Transaction, ICIFC was a division or subsidiary of ICII since 1990. IMH owns 99% of the economic interest in ICIFC, while Joseph R. Tomkinson, Chief Executive Officer of IMH and ICIFC, william S. Ashmore, President of IMH and ICIFC, are the holders of all the outstanding voting stock of, and 1% of the economic interest in, ICIFC.

Warehouse Lending Operations. The Warehouse Lending Operations, conducted by IWLG, provides warehouse and repurchase financing to ICIFC and to approved mortgage banks, most of which are correspondents of ICIFC, to finance mortgage loans during the time from the closing of the loans to their sale or other settlement with pre-approved investors. At September 30, 1997, the Warehouse Lending Operations had \$301.4 million in finance receivables outstanding, of which \$236.5 million, \$8.3 million and \$2.5 million was outstanding with ICIFC, ICCC and ICH, respectively.

#### 3. Investment in ICI Funding Corporation

The Company records its investment in ICIFC on the equity method. On March 31, 1997, ownership of all of the common stock of ICIFC was transferred from ICII to Joseph R. Tomkinson, Chief Executive Officer of IMH and ICIFC, William S. Ashmore, President of IMH and ICIFC, and Richard J. Johnson, Chief Financial Officer of IMH and ICIFC, who are entitled to 1% of the earnings or losses of ICIFC. The Company is entitled to 99% of the earnings or losses of ICIFC through its ownership of all of the non-voting preferred stock of ICIFC. Gains or losses on the sale of loans or securities by ICIFC to IMH are deferred and amortized or accreted for gain or loss on sale over the estimated life of the loans or securities using the interest method.  Investment in IMH Commercial Holdings, Inc. (formerly Imperial Credit Commercial Holdings, Inc.)

The Company records its investment in ICH on the equity method. ICH is a recently formed specialty commercial property finance company which elects to be taxed at the corporate level as a REIT for federal income tax purposes. ICH was incorporated in February 1997 for the purpose of investing in commercial mortgages and commercial mortgage-backed securities. In March 1997, the Company capitalized ICH with \$15.0 million in cash evidenced by a promissory note which was converted into an aggregate of 3,000,000 shares of ICH Preferred Stock (the "ICH Preferred Stock"). On August 8 1997, the closing date of the ICH IPO, the Preferred Stock converted into shares of ICH Common Stock and non-voting Class A Common Stock. Prior to the ICH IPO, the Company owned 299,000 shares of ICH non-voting Class A Stock and 3,000,000 million shares of ICH Preferred Stock and was entitled to 49.92% of the earnings or losses of ICH while certain officers and directors of IMH and ICIFC, owned 300,000 shares of ICH Common Stock and were entitled to 50.08% of the earnings or losses of ICH. As of September 30, 1997, IMH owns 719,789 shares, or 9.8%, of ICH Common Stock and 674,211 shares, or 100%, of ICH non-voting Class A Stock. ICH was formed to seek opportunities in the commercial mortgage market. Commercial mortgage assets include mortgage loans on condominium-conversions and mortgage loans on commercial properties, such as industrial and warehouse space, office buildings, retail space and shopping malls, hotels and motels, nursing homes, hospitals, multifamily, congregate care facilities and senior living centers. ICH will also purchase mortgage-backed securities on commercial properties, such as pass-through certificates and REMICs.

ICCC was formed in January 1997. The Company purchased all of the non-voting Preferred Stock of ICCC, which represented 95% of the economic interest in ICCC, for \$500,000. On the closing date of the ICH IPO, the Company contributed (the "Contribution") 100% of the outstanding shares of non-voting Preferred Stock of ICCC in exchange for 95,000 shares of ICH Common Stock. ICCC operates three divisions: the Condominium Division, the Retail Division, and the Correspondent and Bulk Purchase Division. Condominium Division offers, on a retail basis, adjustable rate financing to developers and project owners who have completed the development of a condominium complex or the conversion of an apartment complex to a condominium complex on property with a typical loan amount of \$3.0 million to \$10.0 million. The Retail Division originates commercial mortgages for properties including general retail property such as shopping centers, super markets and department stores, light industrial property, and office buildings with loan amounts between \$500,000 to \$1.5 million. The Correspondent and Bulk Purchase Division originates commercial mortgages on a retail basis and purchases commercial mortgages on a bulk and flow basis. This division offers larger principal balance loans (\$1.5 million and \$10.0 million) for commercial projects than those funded by the Retail Division.

On August 8, 1997, ICH completed an IPO of 6,325,000 shares of common stock at \$15.00 per share at which time 299,000 shares of ICH Class A Stock and 3,000,000 shares of ICH Preferred Stock held by the Company converted into 719,789 shares, or 9.8%, of ICH Common Stock in addition to 674,211 shares, or 100%, of ICH Class A Stock. For additional information regarding the ICH IPO, see Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations--Significant Transactions." #### 5. Investment Securities Available-for-Sale

The Company classifies investment and mortgage-backed securities as held-to-maturity, available-for-sale, and/or trading securities. Held-to-maturity investment and mortgage-backed securities are reported at amortized cost, available-for-sale securities are reported at fair value with unrealized gains and losses as a separate component of stockholders' equity, and trading securities are reported at fair value with unrealized gains and losses reported in income. Discounts obtained on investment securities are amortized to interest income over the estimated life of the investment securities using the interest method. At September 30, 1997, IMH's investment securities available-for-sale included \$66.0 million of subordinated securities collateralized by mortgages and \$5.4 million of subordinated securities collateralized by other loans. In general, subordinated classes of a particular series of securities bear all losses prior to the related senior classes.

The Company's investment securities are held as available-for-sale, reported at fair value with unrealized gains and losses reported as a separate component of stockholders' equity. As the Company qualifies as a REIT and no income taxes are paid, the unrealized gains and losses are reported gross in stockholders' equity.

#### Significant Transactions

In February 1997, certain officers and directors of the Company, as a group, and IMH purchased 300,000 and 299,000 shares of the Common Stock of ICH, respectively. In addition, IMH purchased all of the non-voting preferred stock of ICCC, which represents 95% of the economic interest in ICCC, for \$500,000, and certain of the Company's officers purchased all of the outstanding shares of common stock of ICCC, which represents 5% of the economic interest in ICCC. In addition, ICCC brokered ICH's purchase of \$7.3 million and \$10.2 million of condominium conversion loans which were financed with \$16.6 million in borrowings under a warehouse lending facility provided by a subsidiary of IMH, and \$900,000 in borrowings from

In March 1997, IMH loaned ICH \$15.0 million evidenced by a promissory note convertible into shares of non-voting preferred stock of ICH at the rate of one share of ICH Preferred Stock for each \$5.00 principal amount of said note. IMH converted the aforementioned \$15.0 million principal amount promissory note into an aggregate of 3,000,000 shares of ICH Preferred Stock. All shares of ICH Preferred Stock were automatically converted upon the closing of ICH's IPO into shares of ICH Common Stock determined by multiplying the number of shares of ICH Preferred Stock to be converted by a fraction, the numerator of which is \$5.00 and the denominator of which is the IPO Price. Notwithstanding the foregoing, consistent with IMH's classification as a REIT, IMH was not entitled to convert into ICH Common Stock more than that number of shares of ICH  $\,$  Preferred  $\,$  Stock whereby IMH  $\,$ would own, immediately after such conversion, greater than 9.8% of ICH's outstanding Common Stock. Any shares of ICH Preferred Stock not converted into ICH Common Stock upon the closing of the Offering shall on such date automatically convert into shares of ICH non-voting Class A Common Stock at the same rate as the ICH Preferred Stock converted into Common Stock. Shares of ICH Class A Stock convert into shares of Common Stock on a one-for-one basis and each such class of Common Stock is entitled to cash dividends on a pro rata basis. Upon any subsequent issuances of Common Stock by ICH or sale of ICH Common Stock held by IMH, shares of ICH Class A Stock shall automatically convert into additional shares of the Common Stock of ICH, subject to a 9.8% limitation. In addition, ICH purchased \$10.1 million in Commercial Mortgage-Backed Securities ("CMBS") from ICIFC which was financed with a promissory note. The promissory note was repaid to ICIFC with cash from IMH's above-referenced \$15.0 million investment. Concurrently, ICH repaid the \$900,000 owed to IMH in connection with its purchase of condominium conversion loans. Subsequently, ICH entered into a borrowing agreement with ICII for \$7.9 million secured by \$10.1 million CMBS.

In April 1997, IMH exchanged the 299,000 shares of ICH Common Stock held by it for an equivalent number of shares of ICH Class A Stock.

Upon the closing of the ICH IPO in August 1997, IMH contributed to ICH 100% of the outstanding shares of non-voting preferred stock of ICCC in exchange for 95,000 shares of ICH Class A Stock. As of September 30, 1997, IMH owns 719,789 shares, or 9.8%, of ICH Common Stock in addition to 674,211 shares, or 100%, of ICH Class A Stock.

In August 1997, IMH/ICH Dove Street, LLC, a California limited liability company, of which each of IMH and ICH own a 50% interest, purchased an office building for \$7.8 million plus related closing costs. IMH and ICH intend to relocate their headquarters to the building over the next two-year period.

During the third quarter of 1997, the Company raised additional capital of \$93.3 million, net of offering expenses, as 3.2 million shares of common stock were issued through a public stock offering and 401,944 were purchased under the Company's Dividend Reinvestment and Stock Purchase Plan. After giving effect to the 3 for 2 stock split, the additional shares of common stock issued through the public stock offering and the Company's Dividend Reinvestment and Stock Purchase Plan were 4.8 million and 602,916, respectively. Proceeds from the sale of securities were used for general corporate purposes including, without limitation, funding the Long-Term Investment Operations, the Conduit Operations and the Warehouse Lending Operations, repayment of maturing obligations, redemption of outstanding indebtedness, financing future acquisitions, capital expenditures and working capital.

#### Historical Trends

During the year ended December 31, 1996, ICIFC's mortgage loan acquisitions increased 35% to \$1.5 billion as compared to \$1.1 billion for the same period in 1995. Excluding the acquisition of mortgage loans from ICII or its affiliated mortgage banking operations, ICIFC's mortgage loan acquisitions increased 110% to \$1.3 billion during 1996 as compared to \$624.5 million during 1995. The increase in mortgage loan acquisitions for 1996 as compared to 1995 was primarily the result of the Company's increased marketing and sales efforts subsequent to the IPO, increased concentration on identifying and servicing productive conduit sellers under master commitment programs and significantly increased sales activity from two conduit sellers. ICIFC's outstanding master commitment programs with various sellers to purchase mortgages increased to \$826.5 million with 68 sellers at December 31, 1996 as compared to \$241.0 million with 18 sellers at December 31, 1995. Additionally, in September 1996 ICIFC introduced it's Progressive Express loan program which resulted in ICIFC funding \$22.0 million in mortgages during 1996. The benefits of this program include less paperwork for the borrower, express credit approval and attractive rates and terms. At December 31, 1996, the Progressive Express program represented 47% of the \$826.5 million in outstanding master commitments. In conjunction with the increase in flow (loan-by-loan) acquisitions, as opposed to bulk loan acquisitions, subsequent to the Contribution Transaction and the continued growth of ICIFC, ICIFC added personnel in 1996. At December 31, 1996, ICIFC employed 104 employees, an increase of 189% from 36 employees at December 31, 1995.

During the nine months ended September 30, 1997, ICIFC's mortgage loan acquisitions  $% \left( 1,3\right) =0$  increased  $% \left$ during the first nine months of 1996. Excluding mortgages acquired from affiliated companies, mortgage acquisitions during the first nine months of 1997 increased 93% to \$1.8 billion as compared to \$957.3 million during the first nine months of 1996. The increase in mortgage loan acquisitions during the first nine months of 1997 as compared to the same period of 1996 was the result of mortgages funded under the Progressive Express loan program, outstanding master commitment programs with various conduit sellers to purchase mortgage loans and an improved real estate market, particularly in California where the Company acquired 32.6% of it's loans during the first nine months of 1997. Under the Progressive Express loan program, ICIFC funded \$557.9 million during the first nine months of 1997, or 30.2% of total loan acquisitions, as compared to \$1.9 million during the first nine months of 1996 as the program was introduced in September 1996. Additionally, as of September 30, 1997, ICIFC had outstanding master commitments with 78 sellers to purchase mortgage loans in the aggregate principal amount of \$1.2 billion as compared to 62 sellers to purchase mortgage loans in the aggregate principal amount of \$774.0 million as of September 30, 1996. At September 30, 1997, the Progressive Express program represented 51.2% of the \$1.2 billion in outstanding master commitments. Due to the continued growth of ICIFC during the first nine months of 1997, ICIFC added personnel. At September 30, 1997, there were 143 employees with ICIFC, a 37.5% increase from 104 employees as of December 31, 1996.

Net income for the third quarter of 1997 increased 102% to \$7.2 million, or \$0.45 per share, as compared to \$3.6 million, or \$0.35 per share, for the third quarter of 1996. Earnings per share for both periods are stated after giving effect to the 3 for 2 stock split.

Revenues for the quarter ended September 30, 1997 increased 85% to \$32.8 million as compared to \$17.7 million for the quarter ended September 30, 1996. Revenues increased during the third quarter of 1997 as compared to the third quarter of 1996 primarily due to increased interest income and equity in net income of ICIFC and ICH. Interest income increased 70% to \$29.6 million during the third quarter of 1997 as compared to \$17.4 million during the third quarter of 1996 as total average Mortgage Assets increased 66% to \$1.4 billion as compared to \$841.6 million during the third quarter of 1996. Average Mortgage Assets are comprised of CMO collateral, mortgage loans held for investment, warehouse financing and securities available-for-sale. Interest income on CMO collateral and loans held for investment increased 102% to \$16.2 million during the third quarter of 1997 as compared to  $\$8.0\,$  million during the same period of 1996 as average CMO collateral and mortgage loans held for investment increased 105% to \$782.3 million as compared to \$381.5 million, respectively. Average CMO collateral and loans held for investment increased as the Company issued CMO's totaling \$348.1 million since the end of the third quarter of 1996. Interest income from warehouse financing increased 44% to \$12.7 million during the third quarter of 1997 as compared to \$8.8 million during the same period of 1996 as average finance receivables increased 33% to \$567.5 million as compared to \$425.9 million, respectively, primarily due to increased warehouse financing with ICIFC. The increase in ICIFC's borrowings with the Company were the result of increased loan acquisitions during the three months ended September 30, 1997 which increased 76% to \$918.2 million as compared to \$520.5 million during the third quarter of 1996. Loan acquisitions by ICIFC during the third quarter of 1997 includes \$351.8 million of second trust deed mortgages purchased in bulk from one seller and \$230.9 million of Progressive Express loans as compared to none and \$1.9 million, respectively, of loans acquired during the third quarter of 1996. Additionally, interest income on investment securities available-for-sale increased 43% to \$2.0 million during the third quarter of 1997 as compared to \$1.4 million during the third quarter of 1996 as average investment securities available-for-sale increased 48% to \$61.5 million as compared to \$41.5 million, respectively. The increase in securities available-for-sale is primarily the result of the Company purchasing and retaining in portfolio mortgage-backed securities issued by ICIFC's REMIC securitizations.

Revenues also increased as IMH's equity in net income of ICI Funding Corporation increased to \$2.4 million during the third quarter of 1997 as compared to \$101,000 for the third quarter of 1996 while IMH's equity in net income of ICH increased to \$403,000 during the third quarter of 1997. ICIFC's earnings increased as ICIFC securitized or sold \$481.6 million of mortgages  $\,$  during the third quarter of 1997 as compared to \$307.3  $\,$  million during the third quarter of 1996. The securitization and sale of mortgages during the third quarter of 1997 resulted in gains of \$5.3 million, or 110 basis points, as compared to \$1.6 million, or 52 basis points, during the same period of 1996. The increase in gain on sale of loans is the result of increased profits from whole loan sales and the securitization of loans funded under the Progressive Express program, which was introduced in September 1996. Progressive Express is a loan program with a one-page loan application that includes less paperwork for the borrower, express credit approval and attractive rates and terms. Additionally, revenues from loan servicing income increased to \$1.1 million for the third quarter of 1997 as compared to \$353,000 for the same period in 1996 as ICIFC's loan servicing portfolio increased to \$2.4 billion at September 30, 1997 as compared to \$1.2 billion at September 30, 1996. Equity in net income of IMH Commercial Holdings, Inc. increased to \$403,000 during the third quarter of 1997 as compared to none during the third quarter of 1996 as ICH was formed in February of 1997.

Expenses for the third  $\,$  quarter of 1997  $\,$  increased 80% to \$25.6 million as compared to \$14.2 million for the third  $\,$  quarter of 1996  $\,$  primarily due to increases in interest expense, management advisory fees and provision for loan losses. Interest expense increased 83% to \$21.8 million during the third quarter of 1997 as compared to \$11.9 million during the third quarter of 1996 as average borrowings, which includes CMO financing and reverse-repurchase and warehouse line agreements, increased 65% to \$1.3 billion as compared to \$787.3 million, respectively. These borrowings provide funding for CMO collateral, mortgage loans held for investment, warehouse financing and investment securities available-for-sale which increased during the third quarter of 1997 as compared to the third quarter of 1996 as previously discussed. Management advisory fees increased 51% to \$1.5 million during the third quarter of 1997 as compared to \$1.0 million during the third quarter of 1996 primarily due to increases in total Mortgage Assets and net income which are used in the calculation of the management advisory fee. Provision for loan losses increased 124% to \$1.9 million during the third quarter of 1997 as compared to \$835,000 during the third quarter of 1996 as loan receivables increased during the respective periods. Loan receivables include CMO collateral, mortgage loans held for sale and warehouse financing. The Company maintained an allowance for loan losses expressed as a percentage of loan receivables of 0.52% at September 30, 1997 as compared to 0.50% at December 31, 1996 and 0.53% at September 30, 1996. As the Company experiences increases in loan receivables and corresponding increases in delinquencies, the Company expects to continue to add to the allowance for loan losses. The Company maintains a policy of reducing the carrying loan losses. The Company maintains a policy of reducing the carrying amount on all foreclosed property to 70% of it's appraised value or brokers price opinion which resulted in gain on sale or disposition of real estate owned of \$144,000 during the third quarter of 1997 as compared to none during the third quarter of 1996. The company reserves the right to modify this policy as market change and residual values increase on disposition of REO's There was no real estate owned which was sold or disposed during the third quarter of 1996. Other operating expenses, which includes professional services, general and administrative expense and personnel expense, increased 33% to \$574,000 during the third quarter of 1997 as compared to \$431,000 during the third quarter of 1996. However, as a percentage of total expense, other operating expenses decreased to 2.2% during the third quarter of 1997 as compared to 3.0% during the third quarter of 1996.

Revenues for the nine months ended September 30, 1997 increased 83% to \$83.5 million as compared to \$45.7 million for the nine months ended September 30, 1996. The increase in gain on sale of loans is the result of increased profits from whole loan cash sales and the securitization of loans funded under the Progressive Express program, which was introduced in September 1996. Progressive Express is a loan program with a one-page loan application that includes less paperwork for the borrower, express credit approval and attractive rates and terms. Additionally, revenues from loan servicing income increased to \$3.0 million for the nine months ended September 30, 1997 as compared to \$622,000 for the same period in 1996 as ICIFC's loan servicing portfolio increased to \$2.4 billion at September 30, 1997 as compared to \$1.2 billion at September 30, 1996.

#### Liquidity and Capital Resources

The Company's principal liquidity requirements result from mortgage loans and mortgage-backed and other collateralized securities acquired by the Long-Term Investment Operations, the Conduit Operations acquisition of mortgage loans held for sale and the funding of finance receivables by the Warehouse Lending Operations. The Long-Term Investment Operations is primarily funded by CMO financing, warehouse financing, reverse-repurchase borrowings on securities available-for-sale and proceeds from the issuance of common stock. The Warehouse Lending Operations is primarily funded by warehouse line agreements with major investment banking firms. The Conduit Operations is primarily funded by the securitization and sale of mortgage loans and mortgage-backed securities and by warehouse line agreements with the Warehouse Lending Operations.

During the nine months ended September 30, 1997 and 1996, net cash (used in) or provided by operating activities was \$(10.4) million and \$5.5 million, respectively. Net cash flows were negatively affected during the first nine months of 1997 as compared to the first nine months of 1996 primarily as due from affiliates and other assets increased. Due from affiliates and other assets increased. The increase in balances due from affiliates is attributable to an increase in balances due from ICIFC which increased to \$26.7 million at September 30, 1997 as compared to none at December 31, 1996. Other assets increased primarily due to the Company's 50% investment in the purchase of a commercial building of \$3.9 million during the third quarter of 1997.

Net cash used in investing activities for the nine months ended September 30, 1997 and 1996 was \$(276.1) million and \$(177.1) million, respectively. Net cash flows were negatively affected during the first nine months of 1997 as compared to the first nine months of 1996 primarily due to increases in outstanding finance receivables, primarily with ICIFC, mortgage loans held for investment and contributions to fund ICH. Net cash flows were positively affected during the first nine months of 1997 as compared to the first nine months of 1996 from increases of mortgage-backed securities and loans held in trust as CMO collateral.

Net cash provided by financing activities for the nine months ended September 30, 1997 and 1996 was \$299.8 million and \$174.4 million, respectively. Net cash flows were positively affected for the first nine months of 1997 as warehouse line agreements used to fund finance receivables, primarily to ICIFC, decreased. Cash flows were positively affected as the Company raised additional capital from the Company's stock offering, which closed in the third quarter of 1997, and from the Company's dividend reinvestment and stock purchase plan. Net cash flows were negatively affected during the first nine months of 1997 as compared to the first nine months of 1996 as CMO financing decreased and dividends paid increased.

#### Warehouse Lending Operations

At September 30, 1997, the Company had \$645.1 million of CMO borrowings used to finance \$694.4 million of CMO collateral held by the Long-Term Investment Operations. The Company uses CMO borrowings to finance substantially all of its mortgage loan investment portfolio as a means of eliminating certain risks associated with reverse repurchase agreements (such as the potential need for deposits of additional collateral) that are not present with CMO borrowings. Terms of the CMO borrowings require that the mortgages be held by an independent third party custodian, with the interest rate on the borrowings ranging from 22 basis points to 50 basis points over one-month LIBOR. Equity in the CMOs is established at the time the CMOs are issued at levels sufficient to achieve desired credit ratings on the securities from the rating agencies. Total credit loss exposure to the Company is limited to the equity invested in the CMOs at any point in time.

Terms of the Company's reverse repurchase agreements require that the mortgages be held by an independent third party custodian, which gives the Company the ability to borrow against the collateral as a percentage of the outstanding principal balance. The margins on the reverse repurchase agreements are based on the type of mortgage collateral used and generally range from 90% to 98% of the fair market value of the collateral. The following represents the available warehouse line agreements (dollars in thousands):

In August 1997, ICH agreed to provide to IMH a \$15.0 million revolving line of credit expiring on August 8, 1998 at an interest rate to be determined at the time of each advance with interest and principal paid monthly. As of September 30, 1997, there was no balance outstanding on the line of credit.

During the third quarter of 1997, the Company raised additional capital of \$93.3 million, net of offering expenses, as 3.2 million shares of common stock were issued through a public stock offering and 401,944 were purchased under the Company's Dividend Reinvestment and Stock Purchase Plan. After giving effect to the 3 for 2 stock split, the additional shares of common stock issued through the public stock offering and the Company's Dividend Reinvestment and Stock Purchase Plan were 4.8 million and 602,916, respectively. Proceeds from the sale of securities were used for general corporate purposes including, without limitation, funding the Long-Term Investment Operations, the Conduit Operations and the Warehouse Lending Operations, repayment of maturing obligations, redemption of outstanding indebtedness, financing future acquisitions, capital expenditures and working capital.

#### Conduit Operations

On the date of the Contribution Transaction, ICIFC entered into a reverse repurchase agreement with the Warehouse Lending Operations for the purpose of providing ICIFC mortgage loan financing during the period that ICIFC accumulates mortgage loans and when the mortgage loans are securitized and sold. Additionally, in September 1997, ICIFC entered into warehouse line agreements with two investment banking firms to provide warehouse financing. The margins on the reverse repurchase agreements are based on the type of collateral used and generally range from 85% to 100% of the fair market value of the collateral. By securitizing and selling loans on a periodic and consistent basis, the reverse repurchase facility was sufficient to handle liquidity needs during the first nine months of 1997 and 1996. The following represents the available warehouse line agreements (dollars in thousands):

Borrower Lender		Commitment Amount	Amount Outstanding	Interest rate
	_			
ICIWLG	\$	600,000	236,544	Prime
ICLendor A		200,000	199,964	Libor + .75% - 1.25%
ICLendor B		300,000	139,749	Libor + .75%
Total	\$	1,100,000	576,257	

On June 24, 1997, the Company contributed \$8.9 million in cash to ICIFC to repay borrowed funds to ICH and to increase liquidity on ICIFC's warehouse line with TWLG

On December 31, 1996, ICIFC purchased residual interests in securitizations from ICII. At September 30, 1997, the residual interests in securitizations total \$37.4 million and are financed by a promissory note with ICII at an annual interest rate of 10%. The promissory note requires six monthly interest only payments of \$246,180 beginning on July 1, 1997, and continuing on the same day of each succeeding month thereafter; followed by one hundred and eleven monthly installments of \$408,974 each. As of September 30, 1997, the current principal balance of the promissory note was \$28.9 million.

In October 1997, ICH agreed to provide to ICIFC a \$15.0 million revolving line of credit expiring on December 31, 1997 at an interest rate of Prime plus 1% with interest and principal paid monthly. As of October 31, 1997,

there	was	\$2.0	million	outstanding	on	the	line	of	credit.
